HEARING RESEARCH

# Author Index Volume 125

Arnold, T., Oestreicher, E., Ehrenberger, K. and Felix, D.
GABA$_A$ receptor modulates the activity of inner hair cell afferents in guinea pig cochlea (125) 147
Athas, G., see Guth, P.S. (125) 154

Bothwell, M., see Mason, K. (125) 120
Botta, L., see Guth, P.S. (125) 154
Buss, E., Hall III, J.W., Grose, J.H. and Hatch, D.R.
Perceptual consequences of peripheral hearing loss: do edge effects exist for abrupt cochlear lesions? (125) 98

Durham, D., see Husmann, K.R. (125) 109

Ehrenberger, K., see Arnold, T. (125) 147

Felix, D., see Arnold, T. (125) 147

Garcia, M., see Guth, P.S. (125) 154
Girod, D.A., see Husmann, K.R. (125) 109
Grose, J.H., see Buss, E. (125) 98
Guth, P.S., Holt, J.C., Perin, P., Athas, G., Garcia, M., Puri, A., Zucca, G., Botta, L. and Valli, P.
The metabotropic glutamate receptors of the vestibular organs (125) 154

Hall III, J.W., see Buss, E. (125) 98
Hatch, D.R., see Buss, E. (125) 98
Holt, J.C., see Guth, P.S. (125) 154
Husmann, K.R., Morgan, A.S., Girod, D.A. and Durham, D.
Round window administration of gentamicin: a new method for the study of ototoxicity of cochlear hair cells (125) 109

Kim, D.O., see Parham, K. (125) 131

Mason, K., Peale Jr., F.V., Stone, J.S., Rubel, E.W. and Bothwell, M.
Expression of novel potassium channels in the chick basilar papilla (125) 120
Moleirinho, A., see Patuzzi, R. (125) 1
Morgan, A.S., see Husmann, K.R. (125) 109

Oestreicher, E., see Arnold, T. (125) 147

Parham, K., Zhao, H.-B., Ye, Y. and Kim, D.O.
Responses of anteroventral cochlear nucleus neurons of the unanesthetized decerebrate cat to click pairs as simulated echoes (125) 131
Patuzzi, R.,
A four-state kinetic model of the temporary threshold shift after loud sound based on inactivation of hair cell transduction channels (125) 39
Patuzzi, R.,
Exponential onset and recovery of temporary threshold shift after loud sound: evidence for long-term inactivation of mechano-electrical transduction channels (125) 17
Patuzzi, R. and Moleirinho, A.
Automatic monitoring of mechano-electrical transduction in the guinea pig cochlea (125) 1
Patuzzi, R.,
The Goldman-Hodgkin-Katz equation and graphical 'load-line' analysis of ionic flow through outer hair cells (125) 71
Peale Jr., F.V., see Mason, K. (125) 120
Perin, P., see Guth, P.S. (125) 154
Puri, A., see Guth, P.S. (125) 154

Rubel, E.W., see Mason, K. (125) 120

Stone, J.S., see Mason, K. (125) 120

Valli, P., see Guth, P.S. (125) 154

Ye, Y., see Parham, K. (125) 131

Zhao, H.-B., see Parham, K. (125) 131
Zucca, G., see Guth, P.S. (125) 154

HEARING RESEARCH

# Subject Index Volume 125

**Acoustic trauma**
Stretch-activated channel; Inactivation; Temporary threshold shift (Patuzzi, R. (125) 17)

Cochlea; Temporary threshold shift; Inactivation; Kinetic model (Patuzzi, R. (125) 39)

**Aminoglycoside**
Chicken; Avian; Cochleotoxicity; Hair cell regeneration (Husmann, K.R. (125) 109)

**Anteroventral cochlear nucleus**
Echo processing; Click pair; Spontaneous rate (Parham, K. (125) 131)

**Avian**
Aminoglycoside; Chicken; Cochleotoxicity; Hair cell regeneration (Husmann, K.R. (125) 109)

**Boltzmann function**
Cochlear microphonic; Homeostasis (Patuzzi, R. (125) 1)

**Chicken**
Aminoglycoside; Avian; Cochleotoxicity; Hair cell regeneration (Husmann, K.R. (125) 109)

**Click pair**
Anteroventral cochlear nucleus; Echo processing; Spontaneous rate (Parham, K. (125) 131)

**Cochlea**
Temporary threshold shift; Inactivation; Kinetic model; Acoustic trauma (Patuzzi, R. (125) 39)

Potassium channel; Inner ear; Hair cell (Mason, K. (125) 120)

Boltzmann function; Homeostasis (Patuzzi, R. (125) 1)

**Cochleotoxicity**
Aminoglycoside; Chicken; Avian; Hair cell regeneration (Husmann, K.R. (125) 109)

**Echo processing**
Anteroventral cochlear nucleus; Click pair; Spontaneous rate (Parham, K. (125) 131)

**Efferent auditory system**
Inner hair cell; GABA receptor; Iontophoretic technique; Guinea pig (Arnold, T. (125) 147)

**GABA receptor**
Efferent auditory system; Inner hair cell; Iontophoretic technique; Guinea pig (Arnold, T. (125) 147)

**Goldman-Hodgkin-Katz equation**
Outer hair cell; Receptor current; Receptor potential; Graphical 'load-line' analysis (Patuzzi, R. (125) 71)

**Graphical 'load-line' analysis**
Goldman-Hodgkin-Katz equation; Outer hair cell; Receptor current; Receptor potential (Patuzzi, R. (125) 71)

**Guinea pig**
Efferent auditory system; Inner hair cell; GABA receptor; Iontophoretic technique (Arnold, T. (125) 147)

**Hair cell**
Potassium channel; Inner ear; Cochlea (Mason, K. (125) 120)

Aminoglycoside; Chicken; Avian; Cochleotoxicity (Husmann, K.R. (125) 109)

**Hearing**
Hearing loss; Plasticity (Buss, E. (125) 98)

Hearing; Plasticity (Buss, E. (125) 98)

**Homeostasis**
Cochlear microphonic; Boltzmann function (Patuzzi, R. (125) 1)

**Inactivation**
Stretch-activated channel; acoustic trauma; Temporary threshold shift (Patuzzi, R. (125) 17)

Cochlea; Temporary threshold shift; Kinetic model; Acoustic trauma (Patuzzi, R. (125) 39)

**Inner ear**
Potassium channel; Cochlea; Hair cell (Mason, K. (125) 120)

**Inner hair cell**
Efferent auditory system; GABA receptor; Iontophoretic technique; Guinea pig (Arnold, T. (125) 147)

**Iontophoretic technique**
Efferent auditory system; Inner hair cell; GABA receptor; Guinea pig (Arnold, T. (125) 147)

**Kinetic model**
Cochlea; Temporary threshold shift; Inactivation; Acoustic trauma (Patuzzi, R. (125) 39)

**Metabotropic glutamate receptor**
Semicircular canal; Vestibular (Guth, P.S. (125) 154)

**Outer hair cell**
Goldman-Hodgkin-Katz equation; Receptor current; Receptor potential; Graphical 'load-line' analysis (Patuzzi, R. (125) 71)

**Plasticity**
Hearing; Hearing loss (Buss, E. (125) 98)

**Potassium channel**
Inner ear; Cochlea; Hair cell (Mason, K. (125) 120)

**Receptor current**
Goldman-Hodgkin-Katz equation; Outer hair cell; Receptor potential; Graphical 'load-line' analysis (Patuzzi, R. (125) 71)

**Receptor potential**
Goldman-Hodgkin-Katz equation; Outer hair cell; Receptor current; Graphical 'load-line' analysis (Patuzzi, R. (125) 71)

**Semicircular canal**
Metabotropic glutamate receptor; Vestibular (Guth, P.S. (125) 154)

**Spontaneous rate**
Anteroventral cochlear nucleus; Echo processing; Click pair (Parham, K. (125) 131)

**Stretch-activated channel**
acoustic trauma; Inactivation; Temporary threshold shift (Patuzzi, R. (125) 17)

**Temporary threshold shift**
Stretch-activated channel; acoustic trauma; Inactivation (Patuzzi, R. (125) 17)

Cochlea; Inactivation; Kinetic model; Acoustic trauma (Patuzzi, R. (125) 39)

**Vestibular**
Semicircular canal; Metabotropic glutamate receptor (Guth, P.S. (125) 154)
